Interior Glass Panels

Interior Glass Panels are the most popular usage of our Jockimo AAG cast textured glass. Cast glass requires little maintenance and provides a level of privacy while allowing an abundance of light to pass through the glass. We offer the largest number of standard textures in the industry and unlike competitors, we produce a new mold for EACH piece of glass which allows us to more easily customize our glass textures for your project at little to no cost up-charge. Our cast glass panels can be tempered, laminated, or bent and tempered to meet codes for safety glass.

Cast Glass Waterfalls

Jockimo cast glass when combined with falling water and light creates a dazzling effect. Jockimo offers numerous cast glass textures that can be utilized in waterfall applications. In fact, some of our textures were developed to be used specifically with running water.

Panels can be tempered for safety . Custom textures, colors and logos can be provided.
